Technical Skills

PHP Language

Its been quite long that I am working on php based web application and Game development. I have used CodeIgniter(CI) and Phalcon. I have great potential of using any framework. I have done Developed projects especially on MVC/HMVC architecture.

Ajax / JSON

It's much easier to send Ajax request rather than loading the whole stuff, and JSON data is more easier in manipulation.

JavaScript / jQuery

I have quite experiences in javascript and jQuery, i can use any jQuery / javascript plugin. I can debug errors easily.

Node

When it comes to real time application Node serves to be best. Done few project on Node.js.

HTML / XML / DTD / CSS / Bootstrap

I also have experience on HTML, XML, DTD, CSS and Bootstrap 3.0. I can use Photoshop as well. I know about Responsive design and Grid system.

MySql

I have designed many databases and write query myself. I have worked with SQLite too. I can design databases using PhpMyAdmin as well as Command line.

I am Familiar with:

- Linux OS (Centos 7.0 / Ubuntu / Linux Mint) / Windows OS
- PhpStorm / Dreamweaver / Eclipse
- Cpanel Management
- Linux Command Line
- VPS Management
- Facebook APIs
- Photoshop
- FTP Client
- SSH Client
- VMware
- Android
- C & C++
- Putty
- Java
- SVN
- C#

Education Tribhuvan University (TU)

Bachelor: B.Sc. CSIT

Finished Bachelor form the Patan Multiple Campus (PMC) with 79.33% despite of involving in job.
